### CAPTURES MADE

By the American Navy-A Spanish Bark Hauled To

BY ONE OF OUR CRUISERS

SIX MILES NORTH OF SAN JUAN. WARD LINE STEAMER TOWED INTO THE PORT OF KEY WEST FOR ACTING IN A SUSPICIOUS MANNER - SHE IS FINALLY RELEASED SPANISH CRUISER FIRES ON A BRITISH STEAMER IN SAN JUAN HARBOR,

(Copyright, 1898, by the Associated Press.) ST. THOMAS, DANISH WEST IN-DIES, May 23.—The British steamer Aldeborough, Captain Farrant, which strived at Posto Rico on May 6 from Mothil, Scotland, reached this port from San Juan de Porto Rico yesterday morning. She reports that an American cruiser captured a Spanish bark six miles north of San Juan on Saturday morning last. The capture of the vessel was observed from San Juan. The prize was towed north.

The Spanish cruiser Isabel II., while at San Juan de Porto Rico, fired on the British steamer Roath, from Barry, on April 22, which arrived at Porto Rico after the bombardment. It is alleged that the Spanish ship fired on the Routh, which was loaded with coal, with the intention of crippling her, and thereby preventing her departure. The officers of the Isabel II., however, claim that the pring was the result of an accident. Mr. Freeman Halstead, the newspaper

correspondent, who has been sentenced to nine years' imprisonment for taking photographs of the fortifications of San Juan de Porto Rico, has been conveyed to a convict camp to undergo his sen-

BRITISH STEAMER TOWED IN

To Key West For Acting in a Very Sus-

picious Manner. KEY WEST, May 23.-The British steamer, Ardanmhor, Captain Dana, was towed into port to-day, in charge of an ensign from the entillary gunboat Osceola, by which vessel the Ardanmhor was selzed yesterday off Carysfort light, because she was acting in a suspicious manner, and was supposed to be trying to enter Havana harbor. She was here several weeks ago with a cargor of cattle for Havena having been turned back by the blockade fleet. The Ardanmhor, which is chartered by James E. Ward & Co., the New York and Cuba mail steamship company, then proceeded to New York ,unloaded her cattle, and cleared for Nassau and Mexican ports, including Vera Cruz. She stopped at Nassau on her way south, and when captured yesterday was far out of her course, if bound for Vera Cruz.

The British steamer Ardanmhor sailed from Guanta, Venezuela, on April 22, bound for Havana, with a cargo of \$73 head of cattle. She was turned back by the blockade fleet, put into Key West and reached New York on May 4. She reported that when off Matanzas, on April 27, she was boarded by the United States cruiser Cincinnati and was warned that she must not enter any Cuban port. She only lost eighteen head of cattle on the voyage, and her cargo was sold here. The Ardanmhor has beeen in the cattle trade between Guanta and Havana for the past six months. She belongs to the Ardan line of steamers registers 1,338 tons and is chartered by James E. Ward & Co., otherwise the New York and Cuba Mail Steamship Company. She sailed from here on May 17, after having cleared for Nassau, N. H., and Mexican ports. The British steamer Ardanmhor was released this afternoon by an order from Commodore Remey. There is a good deal of mystery as to why she was seized.

James E. Ward & Company it was said there was no truth in the allegation that the steamer Ardanmhor was trying to run the blockade of Havana, and surprise was expressed at the fact that she had been seized. It was added that the Ward line people had never had anything to do with the Ardanmhor until after she discharged her cargot of cattle at New York, when they chartered her. When the steamer left New York on May 17 she had on board a general cargo, consisting principally of railroad iron, manufactured iron and lumber. She was bound for Nassau and Mexican ports. She left Nassau on Sunday night of last week, and was bound from there to Tampico, Mexico, and from there to Vera Cruz, returning here after touching at Progresso.

The officials of the Ward lines say that there has not been the slightest thought of attempting to enter any Cuban port, as could be demonstrated by the fact that the Ardanmhor had nothing in her cargo suitable for a blockaded port. It was added that the authorities at Washington would be at once communicated with, and that a demand for the release of the steamer would be promptly made.

FINANCE AND TRADE

The Features of the Money and Stock Markets.

NEW YORK, May 23.-Money on call at 1@1% per cent; last loan 1% per cent. Prime mercantile paper 41/251/2 per cent. Sterling exchange firm, with actual business in bankers' bills at \$4.86%@4.86% for demand and at \$4 83%@4 86 for sixty days. Posted rates \$4 841/4 and \$4 871/4. Commercial bills 34 831/Q4 83. Silver certificates 575/Q581/c. Bar silver 57/4c. Mexican dollars 45/4c. The level of prices of stocks was

The level of prices of stocks was lifted another notch as a result of to-day's trading. The dealings were not large and there was no general activity in the market. That is to say the volume of dealings in the speculative favorites was not very large and a number of important stocks were inactive. At the same time it was notices number of important stocks were inac-tive. At the same time it was notice-able that a number of usually inactive shares were moved and this gave the market the appearance of a broadening tendency which a closer analysis did not altogether confirm. There was a not altogether confirm. There was a large number of individual transactions large number of individual transactions of the small dividend-paying stocks, indicating a demand for investment sources. Buying of this character is usually designed for permanent or long time holding and always accompanies a plentiful supply of money. There was no evidence, however, of any widespread general interest in stocks and the speculative public evidently prefers spread general interest in stocks and the speculative public evidently prefers to wait for a definite outcome of the naval manoeuvres in West Indian waters. There was a good market for Americans in London and prices were well sustained on a belief that Spain would shortly sue for peace. There was a coincident rise of a point or over in Spanish fours in London and Paris. A rumor that this was due to a pending Franco-Spanish alliance did pot hurt Americans in London. London was also Americans in London. London was also a buyer of St. Paul here and altogether

a buyer of St. Paul here and altogether was quite a factor in the strength of the New York market.

Northwest responded to its excellent statement of April earnings with a rise of 2 points and radiated strength through both the Vanderbilt and the Granger groups with each of which was co-ordinate. Early in the day there was a further advance of over 2 points in Pullman. Other conspicuous gains were New Tork Air Brake 5½; New Haven 2½; Minnestota Iron 4; Metropol-Haven 21/2; Minnesota Iron 4; Metropolitan Street Railway 24 and Leather preferred and Rubber preferred about preferred and Rubber preferred about 2 points each. There were others realizing in the late dealings, caused a break of nearly 4 points in Pullman, of 2½ in Consolidated Gas and 2 points in New York Air Brake. The result was an unsettled closing considerably below the best in some caser and with net gains as a rule only small. The rates for money continued to droop and the desire for some evidence of that active demand as indicating business activity began to extend outside the circle of began to extend outside the circle of the money lenders. The accumulation and withholding of exchange resulted and withholding of exchange vesuited in a further advance of \( \frac{4}{2} \) in the rate for demand sterling and of \( \frac{4}{2} \) for sixty day bills. Discount rates declined in London, Berlin and Paris in consequence of the relief of those centres from the pressure of exchange for New York.

Railroad bonds were narrow and in active, but prices were well held. Total sales, \$1,350,000.

United States new 4s declined 1/4 per cent in the bid price. Others were un-The total sales of stocks to-day were

Americans were strong.

BONDS AND STOCK QUOTATIONS

Brendstoffs and Provisions.

CHICAGO-Fine weather, lower cables and the promise of an early harvest weakened wheat to-day. Prices declined %c in July, 14,61% lower for September. Cora lost %c and onts %6%c. Provisions showed declines of 10012%c. Lower quotations from Liverpool and bright sunshine at home started the wheat bears all over the exchange into activity to-day with the accompaniment of a break in prices. The bullishness that was apparent in wheat Saturday had so trace left to-day. The country sews on the whole was of the most favorable character, not only as to the promised heaviness of the yield, but also the prospect of an early hervest. September was so freely offered that it sold at \$8%c before buyers appeared in any great number. The relief from the selling pressure came from the Mddie. weakened wheat to-day. Prices declined ers appeared in any great number. The relief from the selling pressure came from the bidding up of July, which was quite easily effected on account of the small open interest in it. It rose from \$1 09½ in ½ Jumps between every fresh transaction until it was up to \$1 14½ and the effect on September put the latter to 90½c. While Leiter was appar-

ently giving good support to July his brokers were selling September freely. Every one feared a demonstration in May and predictions were made of a rise to \$1 for that month before the end of the week. The news of a statistical character was for the most part exceedingly bearish, the only exception to that being a considerable failing off in Minneapolis and Duluth receipts which to-day were 399 cars, against \$18 the previous Monday and compared with 62 the similar day of last year. Chicago, however, got 296 cars and a 62,900 bushel cargo of lake, against only six carloads the corresponding day of last year. The clearances from Atlantic ports since Saturday were equal in wheat and flour to \$52,000 bushel. The visible supply showed an increase of 1,091,000 bushels, compared with 1,441,000 bushels the similar week last year. July started 1@2c lower at \$1,094,61 104, advanced rapidly to \$1 144, then settled back to \$1.094, and rallied to \$1 il bid at the close. September opened 1%61% lower at \$55,620%, sold up to \$54,6 down to \$55,6, then strengthened to \$94, bid for the final quotation. May ranged between \$1.54 and \$1.65 bid, the latter figure being the closing price.

The improvement in the weather was the most prominent of the influences in the corn pit. The recent buyers on poor prospect for next crop were less positive

the corn pit. The recent buyers on poor prospect for next crop were less positive about chance of failure and about chance of failure and became sellers. There was also considerable selling on short account. A weak market was the natural result, but it was not by any means a panicky weakness. The buils seemingly are not of the kind that act as if one good day made a whole summer and they were not sellers, on a large enough scale to threaten the knocking out of the bottom. The steadlines of wheat after the break it steadiness of wheat after the break it had in the forenoon helped to maintain had in the forenoon helped to maintain the courage of the corn bulls. Receipts were 632 cars. July opened %4% to lower at 35@35%; sold down to 34% @34% and improved to 35% @35%; at the close. The market for oats was the same. July opened %4% to lower at 25%; sold up to 26%; down to 25%; and advanced to 25% at the close.

Provisions shared in the weakness developed in grain. The break in corn

developed in grain. The break in corr developed in grain. The break in corn especially was an influence. Packers, with one or two exceptions, were seliers. The demand was rather indifferent, July pork was down 2½-67½-6 at the opening at \$12 20@12 25, fell off to \$12 00 and rallied up to \$12 15 at the close. July lard started 56910c lower at \$6 37@6 42, sold down to \$6 32 and closed at \$6 37½. Short ribs opened 7c off at \$6 15, declined to \$6 07 and rallied to \$6 10%6 12½ for the final quointions. Estimated receipts for to-morrow. timated receipts for to-morrow:
